Signature _____ **Date** _____

CODE OF ETHICS

As a member you must support the following:

Consulting engineering is an important and learned profession. The members of the profession recognize that their work has a direct and vital impact on the quality of life for all people. Accordingly, the services provided by consulting engineers require honesty, impartiality, fairness and equity and must be dedicated to the protection of public health, safety and welfare. In the practice of their profession, consulting engineers must perform under a standard of professional behavior which requires adherence to the highest principles of ethical conduct on behalf of the public, clients, employees and the profession.

Consulting engineers, in the fulfillment of their professional duties, shall:

- Hold paramount the safety, health and welfare of the public in the performance of their professional duties.
- Perform services only in areas of their competence.
- Issue public statements only in an objective and truthful manner.
- Act in professional matters for each client as faithful agents or trustees.
- Avoid improper solicitation of professional assignments.

These are the fundamental canons of the American Council of Engineering Companies and are subscribed to by all members of the American Council of Engineering Companies- Utah.

MEMBERSHIP REQUIREMENTS

Member firms shall be limited to those individual firms, parent firms, branch offices or subsidiaries whose resident principal (proprietors, partners or officers) furnish independent consulting engineering services, and shall:

- a) Maintain established offices for the practice of consulting engineering, as (i) sole proprietorships; (ii) as partnerships; or (iii) as corporations furnishing consulting engineering service providing that their officers act for them on professional policies and activities;
- b) have principals registered or licensed professionally in accordance with the laws of the states in which they practice;
- c) belong to a Member Organization (such as American Council of Engineering Companies Utah);
- d) practice consulting engineering in accordance with the ACEC Professional and Ethical Conduct Guidelines;
- e) practice under an organizational arrangement that does not involve a conflict of interest or does not subordinate independent professional judgment to other construction contracting, manufacturing, sales, public utility, holding company or other similar organizations which function as service organizations for the controlling company, shall not be eligible for

membership.
